Rick,

I cut this down at Linda's request and she would like to make the additional cut below.

I have to leave now. Can you take a look and let everyone know if you think it is okay?

Importance: High

Linda,

I'll call you. I shortened, and I think it reads better and is more simple, but each paragraph has information I believe we really want to be in the update so commenters will know.

Subject: Re: draft OPP update for meth and carb draft BEs

Hi ESA team,

Apparently we need the comms materials (OPP update) as close to final as soon as possible, given that the comms docs are needed in order to receive approval to release the draft BEs for carbaryl and methomyl. Khue, can you please track down the status of the OPP update and let FEAD know we need it ASAP in order to get clearance to release the draft BEs? Thanks.

Anita
